### A Wonderful experience

We thoroughly enjoyed our 3 night cruise on the Emmylou. The food was just beautiful, the staff were so friendly and could not do enough for you. The refurbished rooms were beautiful and even though they are small, this makes it all so much fun. From the eco-cruise, the lovely dinner in the packing shed at Perricoota station and the BBQ under the stars and just cruising up and down this lovely river, the whole experience was just top notch. The small number on board also makes it such a lovely experience. I highly recommend you do this cruise.

### Wonderful adventure, great staff, excellent food

We had never been to the Murray and once we found the Paddlesteamers, there was only one we wanted to be on. The Emmylou was a wonderful adventure, with the huge steam engine chugging along and the paddle wheel swooshing through the water. Met some wonderful people, the staff were super friendly and attentive and the kitchen whipped up high quality and plentiful meals. Well stocked bar too. The cabins are tiny, but this is to be expected on such a vessel. Very cold nights but our cabin was as warm as toast. Highly recommended.

### Step back in time in style

We did the 2 day Emmy Lou cruise. Fantastic. The whole trip was worthwhile. The crew were so helpful and friendly, the food was great and the cabins were 5 star. Being an actual wood-fired paddle steamer was a tremendous highlight as was being on the mighty Murray River.

### Just Charming...a Rustic Adventure

Hubby and I just loved this..... from the moment on boarding right through. We are seniors, and found the trips very manageable with careful handling of stairs.... We were in Cabin Number 2 which had recently been re modelled to include a Queensize Bed and private ensuite. One has to remember that you are in a cabin, so it was small but top class. Furnishings beautiful. But you have to be able to climb a little into the bed as the storage is underneath. (Was funny!).. Food and service over the moon...lovely travellers, but then we are people persons. Staff could not do enough. The programmed trips were thoroughly enjoyable. Highly recommended.

### Australia Experience

Wonderful Australian experience for this American couple. Met Australians from all over and had a uniquely Australian experience on the Murray River. Comfortable updated stateroom. Excellent food with serving sizes way to generous.
